

Date	Theme	Description	Cost
June 14-18	From Fresh to Salt	There are many different places to go fishing. Some anglers prefer freshwater whereas others prefer fishing in saltwater. A mixture between fresh and salt is brackish water where a lot of nice game fish live as well. Campers will learn about what techniques and bait to use for fishing in all types of aquatic habitats.	\$400
June 21-25	Bigger, Better, Basser	The largemouth bass is the most sought-after freshwater game fish whereas the peacock bass has proven to be quite the enjoyable game fish to target as well. Campers will have the opportunity to learn advanced techniques to improve their chances of hooking up on a lunker largemouth or massive peacock bass. These freshwater field trips are designed to increase the camper's chance as well!	\$400
June 28 - July 2	Natural Bait is Great!	Fishing with natural bait can be extremely effective because you are presenting the fish with an option they are already used to eating. Campers will test out various natural baits from live worms to live shrimp and baitfish. Campers will also test out some not so common natural baits like cheese and hotdogs!	\$400
July 6-9*	The Science to Fishing	Campers will turn into Scientists this week to study ocean habitats and the animals that reside there. Healthy habitats mean healthy fisheries. As stewards of the environment, they will dive deeper into the ocean world through fishing, critter collections, and much more!	\$350
July 12-16	Beyond the Beach	Florida is known for its vast coastline so this week of camp will focus on inshore fishing. Campers will still learn the basics and go fishing in freshwater, but they will learn techniques that can help them fish near Florida's many shores such as off seawalls and piers. Campers will also learn how to throw a cast net!	\$400
July 19-23	That Behavior is Fishy	There are many different species of fish out there with different behaviors making each species unique. Campers will explore different fish behaviors such as schooling to appreciate the elaborate life of a fish! Understanding fish behavior will also help campers understand what techniques to use while fishing based on what species they are targeting.	\$400
July 26-30	Which Fish is Which	Campers will dive into the wonderful world of fishes! Proper fish identification and how to follow the rules and regulations is very important when it comes to fishing. Campers will also learn the basics of fishing and go fishing in both freshwater and saltwater locations.	\$400
August 2-6	Fishin' on the Fly	Fly fishing is a challenging and graceful way of fishing. Campers will get the opportunity to practice casting and retrieving the fly line while using the IGFA's fly rods. They'll even learn to tie their own "flies" and are encouraged to test their new skills while at our field trip sites.	\$400
August 9-13	Advanced Angling (ages 10-14)	Campers' skills will be put to the test and improved upon to target more impressive game fish. This week will include lessons from and fishing alongside Pro Staff, Captains, and IGFA World Record Holders. IGFA camps are usually all Catch and Release but not this week! Campers who catch a legal fish on the drift boats can keep it and learn what the next steps are including how to filet and cook their catch.	\$525
