***STRIKE
STORY***

THIS IS OUR STORY

Born from a lifelong obsession with game fishing, half a century of shoe-making expertise, and too many back injuries and lost fish, Strike's range of high-performing shoes and boots is made by anglers, for anglers – a rare proposition for anyone searching for the best non-slip fishing footwear on the market.

The aim? To combine safety with functionality, performance, durability, and 24/7 comfort in the most sustainability-aware way possible. The result? A new, non-marking, slip-stopping, stylish shoe collection, rigorously tested and approved by the highest level of international saltwater anglers.

Built with some of the most progressive fabrics and technologies available to us, we are Strike, and we're committed to keeping you upright and in the fight.

THE OFFICIAL FOOTWEAR OF IGFA

Strike is proud to partner with the International Game Fish Association (IGFA) – the globally recognised non-profit dedicated to game fish conservation and ethical angling since 1939.

Now with a presence in over 100 countries, IGFA sets international fishing rules, maintains world record standards, and leads efforts in scientific research, habitat protection, and youth education.

We share a mission to protect the future of our sport and the waters that sustain

it, and as such, Strike is committed to donating a portion of proceeds from every sale to IGFA initiatives. These include habitat restoration projects, tagging programs that track fish migration and population health, and global educational programs teaching young anglers about sustainability and stewardship.

Through these efforts, IGFA ensures future generations inherit thriving marine environments and understand the responsibility that comes with enjoying them.

BLUEFIN LACE SNEAKER

Style, comfort, performance, on and off the deck

ST51921

The Bluefin Lace Sneaker delivers advanced traction and rapid drainage in one lightweight package. We've constructed the upper from breathable SEAQUAL® YARN, made with upcycled marine plastic, to reduce our reliance on virgin materials, and brought comfort to the forefront with our highly cushioned EVA midsole – perfect for extended sessions on the water. A TPU toe bumper adds protection up front, and our Aqua Deck Sole – built from a unique and optimal blend of rubbers – delivers enhanced stability and grip when decks are slick and stakes are high.

Key Features

GREATER GRIP

Performance rubber delivers elite traction on deck.

DOUBLE-DOWN ON DRAINAGE

Strike's Aqua Sluice Gill System channels water away from the foot, fast.

A CUT ABOVE

Precision-cut channels increase the surface area of the sole to reduce the risk of slip.

NO HEAVY LIFTING

Bluefins barely tip the scales thanks to super lightweight material uppers.

24/7 HEAVEN

A breathable SEAQUAL® YARN fabric construction keeps you comfy from dawn to dusk.

The Bluefin Lace Sneaker is available in Black, Navy, and Off-White.

4AB NAVY LTHR & TEXT W/BUE

4OR BLACK LTHR & TEXT W/PURPLE

4TQ OFF WHITE LTHR & TEXT W/TURQ

BLUEFIN SANDAL

A bucket list shoe for bucket list trips

ST51901

Spinning the traditional hot-weather staple on its head, the Bluefin Sandal is a new performance contender for warmer waters. Drainage channels at the toe and sides work with our Aqua Sluice Gill System to offer saltwater a quick exit from the shoe, keeping your feet light and dry. The advanced Aqua Deck Sole – powered by Solum Bio Tread™ – provides multi-surface grip, and an EVA midsole delivers cushioning where you need it most. We’ve also built the upper from recycled polyester and spandex with integrated ventilation panels for maximum airflow and quick drying, so that they can be ready for tomorrow’s mission in record time.

Key Features

SOLES THAT HOLD

Reduce the risk of deck slips with the high-grade rubber in our advanced Aqua Deck outsoles.

LEAVE NO TRACE

Despite enhancing grip and performance, Strike soles are totally non-marking, meaning your deck stays pristine.

DOUBLE-DOWN ON DRAINAGE

Strike’s Aqua Sluice Gill System channels water away from the foot for less weight and more comfort.

APPROVED BY IGFA

Approval from the International Game Fishing Association means performance of the highest standard.

DRY FAST

Expect quick drying times thanks to an optimal blend of spandex and recycled polyester in the sandal’s uppers.

The Bluefin Sandal is available in Navy, Black, and Off-White.

4AB NAVY LTHR & TEXT W/BUE

SILVERTIP STRAP SNEAKER

Get locked in when you head out

ST53725

Ever wondered what it feels like to fish with complete confidence in your footing? The Silvertip Strap Sneaker is built for long days on and off deck – a versatile performer delivering secure fit, fast drainage, and real comfort. We've constructed the upper from SEAQUAL® YARN, made with upcycled marine plastic to combat ocean pollution. Our Aqua Sluice Gill System features drainage channels that eject water fast, keeping feet light and dry. A fully adjustable strap locks you in tight, delivering the stability and control that lets you focus on what's happening on your hook, not under your foot.

Key Features

PAIN-FREE DRAINING

Strike's Aqua Sluice Gill System channels water away from the foot for round-the-clock comfort.

SOLES THAT HOLD

Reduce the risk of deck slips with the high-grade non-marking rubber in our Aqua Deck outsoles.

LOCK IT DOWN

The Silvertip's adjustable strap provides superior security in all challenging conditions.

The Silvertip Strap Sneaker is available in Navy.

FABRIC FIT

The integration of SEAQUAL® YARN into the uppers means a durable, lightweight, and foot-hugging fit all day long.

4AA NAVY LTHR & TEXTILE

433 BROWN LTHR & TEXTILE

SILVERTIP BOAT SHOE

A classic, upgraded

ST53625

The Silvertip Boat Shoe blends performance with style for anglers who demand both on and off the salt. We've modernised the traditional maritime silhouette with high-performance materials and technologies, including water-repellant leather approved by the Leather Working Group (LWG); a knitted inner sock made from SEAQUAL® YARN; our Aqua Sluice Gill System for fast drainage; and an outsole powered by Solum Bio Tread™ that delivers multi-surface grip whether you're at sea or in the bar.

Key Features

BETTER LEATHER

The leather we use in our uppers is not only water repellent, but responsibly sourced, too.

APPROVED BY IGFA

Approval from the International Game Fishing Association means performance of the highest standard.

SEE YA, SEAWATER

Strike's innovative Aqua Sluice Gill System channels water away from the foot, fast.

The Silvertip Boat Shoe is available in Navy and Brown.

TREAD AHEAD

The Silvertip's outsole is powered by Solum Bio Tread™ technology for next-level multi-surface traction.

DOGTOOTH CLOG

Engineered for easy wear

ST79005

Our Dogtooth Clog is a perfect example of what happens when performance, innovation, safety, and comfort collide. We've reimagined the modern classic with a showcase of Strike's high-performance materials and technologies, including intelligent footbed grooves for all-action stabilisation; our Aqua Deck Sole blending natural and synthetic rubbers with Solum Bio Tread™ for elite non-marking traction; an adjustable backstrap that converts the clog into a mule with one simple adjustment; and recycled materials throughout that lighten our impact on the oceans we fish.

Key Features

GREATER GRIP

An optimal blend of performance rubbers delivers elite non-marking traction on deck.

TWO SHOES IN ONE

Turn the clog into a mule with one simple adjustment.

MORE GROOVING, LESS MOVING

Intelligent footbed grooves provide all-action stabilisation.

STAY SECURE

Our adjustable backstrap brings at-sea security without compromising comfort.

RESPONSIBLE INGREDIENTS

Natural rubbers and recycled plastics ensure the Dogtooth Clog has a lighter impact on the planet.

The Dogtooth Clog is available in Black, Navy, and Off-White.

VOO BLACK RUBBER

VTA OFF WHITE RUBBER W/NAVY

BIGEYE BOOT

A new best-in-class for harsh conditions

ST50955

Built for serious saltwater action, the waterproof Bigeye Boot pairs hard-wearing protection with all-day comfort. Vulcanised rubber and aeroprene mesh deliver toughness without bulk, while an easy kick-off design helps you catch a break quick between hookups. Inside, you'll find an antimicrobial OrthoLite® footbed and fast-drying SEAQUAL® YARN sock liner, and underneath lies Strike's Aqua Deck Outsole that'll grip through spray, swell, and sudden strikes.

Key Features

STAND STRONG

Aqua Deck Sole technology uses an optimal blend of rubbers to offer superior non-marking grip on every trip.

GET IN THE GROOVE

Precision-cut channels push water away from the sole to reduce the risk of slip.

HALT THE SALT

A vulcanised rubber construction brings robust waterproof performance to the party.

DRY ON THE FLY

Mesh sock linings help the boot interiors to dry out fast.

EASY-OFF ACTION

Reel in and relax thanks to a kick-off design for quick removal.

The Bigeye Boot is available in Navy, Black, and Off-White.

2AB NAVY NUBUCK W/BLUE

200 BLACK NUBUCK

NARROWTOOTH FLIPFLOP

24/7 comfort, 100% performance

ST70900

The Narrowtooth Flip Flop proves that lightweight design doesn't mean lightweight performance. Made for long days both sides of the dock, it delivers shock-absorbing comfort and robust functionality without sacrificing a streamlined profile. We've crafted the padded strap from water-repellent leather sourced from a Leather Working Group (LWG) certified tannery, while a three-density EVA footbed and midsole provide serious cushioning that won't weigh you down. A durable RPET webbing toe post keeps everything secure, and Strike's Aqua Deck Outsole with Solum Bio Tread™ delivers non-slip traction on wet and dry surfaces. This is heavyweight grip in a featherlight package.

Key Features

BRACE FOR IMPACT

Shock-absorbing soles bring support when the fish hit fast

SOFTER ON SOLES

Three-density EVA footbed goes the extra mile in underfoot comfort

RESPONSIBLY SOURCED STRAPPING

Built from a Leather Working Group tannery, the padded leather strap is as comfortable as it is responsible

A POST WORTH A BOAST

by using 100% RPET plastic, the webbing post is a durable detail

NON-SLIP FLIPFLOP

Aqua Deck Outsole technology pushes water away from the foot for on-deck stability

The Narrowtooth Flipflip is available in Navy and Black

PRODUCT
DESIGN***

STRIKE MATERIAL INNOVATIONS

SEAQUAL®

All-day saltwater trips demand durability and quick-drying performance – which is why we build our footwear with SEAQUAL® YARN. Constructed from 10% upcycled marine plastic and 90% post-consumer recycled polyester, this exceptional fabric is comfortable, hard-wearing, fast to dry, and a direct reflection of our commitment to lessening our impact on the oceans we fish.

[More about SEAQUAL®](#)

SOLUM™

Our biomaterial partner, Solum, provides us with a 100% bio-based plant additive for our rubber outsole compound. It replaces traditionally used harmful petrochemicals without compromising supreme grip and durability on deck.

[More about Solum™](#)

RECYCLED MATERIALS

We use recycled EVA (Ethylene-Vinyl Acetate) in our footbeds and midsoles, keeping plastic waste out of landfills and oceans while delivering the cushioning and support you need on deck. Our recycled RPET – made from post-consumer plastic – creates lightweight, moisture-

regulating material that diverts waste and cuts reliance on virgin polyester. Less extraction, fewer emissions, same performance.

LEATHER WORKING GROUP

We source our water-repellent leather from a Leather Working Group (LWG) certified tannery. The LWG is a global non-profit that audits and certifies tanneries on environmental performance and responsible practices, and helps us to ensure the leather in your boat shoes meets the highest standards for quality and accountability.

STRIKE PERFORMANCE TECHNOLOGIES

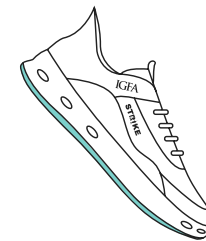

AQUA CLEAT LACING

Recycled polyester lacing keeps you locked in and stable throughout the fight.

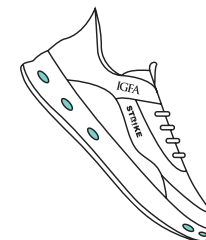

AQUA STABILISER CHASSIS

Our multi-density midsoles deliver comfort and support from first cast to last.

AQUA DECK SOLE

Our Aqua Deck Outsole technology combines high-grade natural and synthetic rubber to deliver superior traction on wet decks, all day long.

AQUA SLUICE GILL

Strike's Aqua Sluice Gill System works with the ocean, not against it, by giving water a clear exit through engineered channels. This maintains slip resistance, comfort, and performance on deck.
